

MARIANA RAMIREZ TIRADO

Product Designer

Brisbane, QLD | 0413 745 620 | marianartirado@gmail.com | [LinkedIn](#) | [UX Portfolio](#)

Recent Master of Interaction Design graduate (UQ) with a design foundation spanning graphic, brand and web design across Mexico and Australia. Experienced across the full product design process: user research, information architecture, prototyping and usability testing — with hands-on delivery in Figma and shipped iOS builds. Bilingual (English/Spanish), comfortable working cross-functionally with engineering and marketing teams.

SELECTED PROJECTS

MedFile — Digital Health Records App — *UX Research & Design Capstone · UQ 2026*

- Led stakeholder mapping and an 8-participant focus group evaluating Australia's Medicare prescription system, surfacing medication-safety and accessibility gaps.
- Synthesized research into 5 UX themes and designed the mid-fi prototype, including a unified medication view and an emergency-summary card for allergies and high-risk medications.

WildTales — Children's Outdoor Adventure App — *UX/UI Design · Figma + iOS (Swift) · UQ 2025*

- UX designer and lead illustrator on a 6-person team; user interviews shaped an offline-first, iOS-first product direction and a 7-stage user flow.
- Defined the style guide and component library, ran usability/accessibility testing, and delivered a full illustration system alongside a working iOS build.

Aquí Vivo — Neighbourhood Management App — *UX Research · UI Design · Branding · ITESO*

- Conducted 1:1 interviews with 4 administrators and a resident focus group for a real external client through ITESO's applied-practice program.
- Designed the complete UI for two user types (finances, bookings, safety, messaging), the brand identity and onboarding site; validated screens directly with residents.

EXPERIENCE

UX Designer — International Student Australia

Feb – May 2024

- Led user testing as team chief during a UX internship; built questionnaires and task-testing protocols and coordinated a cross-functional testing team.

AI Trainer (Freelance) — micro1

Jan – Feb 2026

- Evaluated AI-generated outputs for clarity, logic and user-centred communication — applying UX judgment to how AI systems present information to end users.

Designer — ProjectBase, Australian Pacific College

Feb – May 2023

- Led a brand refresh for an external industry client across web and social media; presented final deliverables with a content calendar and recommendations.

Graphic Designer — TEDxUQ

Jan – Dec 2025

- Produced visual assets, photography and video for one of Queensland's largest independently organised TED events, maintaining brand consistency across platforms.

Additional Experience

- **Senior Designer, Promogator Mexico (2020–2022)** — led a design team across web, textile and packaging design.
- **Graphic Designer, DIEFER Marketing Agency (2019–2020)** — branding and content for client social campaigns.
- **Receptionist, International Student Australia (2024) & Kitchen Hand, La Patrona Mexican Cuisine (2022–2024)** — customer service, multitasking and high-pressure teamwork.

EDUCATION

Master of Interaction Design — The University of Queensland, Brisbane

June 2026

Diploma of User Experience Design — Australian Pacific College, Brisbane

April 2024

Bachelor Degree in Design — ITESO, Guadalajara, Mexico

Dec 2019
